Vigilan Partners With aQuire Training Solutions for Increasing Operational Effectiveness

Online training solutions enhance staff job satisfaction, quality care and profitability

PORTLAND, Ore., May 27, 2008 —[Vigilan](#) announced today that it has added [aQuire Training Solutions](#) to its network of partners to further enhance operational management in assisted living communities. Vigilant has seen a substantial difference in its current customer base of those who have used aQuire alongside Vigilant's suite of operational management systems. Through this partnership, Vigilant customers can obtain aQuire online training at a reduced rate.

“We have witnessed an outstanding level of quality in the care providers who have used aQuire Training Solutions,” said Doug Fullaway, president and COO of Vigilant. “The better a care provider is trained and engaged in quality care, the better they utilize our own suite of software products that further enhance community operations and profitability.”

aQuire Training Solutions' unique approach to teaching care providers involves a process of telling stories to help learners synthesize content, engaging them in interactive online activities, using motivational strategies to help them grasp the significance of their work, and evaluating what they have learned through online assessments.

“Alongside Vigilant, we bring an extensive level of experience as owners and operators of our own communities, so we know the intricate details and challenges of every minute of every day,” said Sharon Brothers, president of aQuire Training Solutions. “Our online training helps direct care workers and managers build the skills they need to deliver quality care, significantly impacting job satisfaction, resident and family satisfaction and impacts the bottom line.”
